

I.C. YACHT
TECHNOLOGY & GLAMOUR

RANGE

Our Range

Each model is constantly evolving to follow the continuous technological progress and to ensure our clients quality and comfort without losing the knowledge and the "savoir faire" of local workers that characterizes the excellence of Made in Italy.

We follow our client's needs offering different way to reach the best result ever. We propose **Made To Measure Range** with the ability to customize details, finishings, deck and interior layout or **Be Spoke Range** building a fully custom version, producing a single copy on the client's specific requirements.

Made To Measure Range

- Timeless Elegance

Refinement and unique design able to relate innovative materials and handcrafted finest details. Winding shilouettes and advanced technologies.

From 23 to 55 feet

- Essential Luxury

Muscular and powerful lines, grit and a military mood, nevertheless accompanied by the priceless materials in pure I.C.Yacht style.

Up to 59 feet

Be Spoke Range

- One Off

Exclusive yachts and especially unique. Unique design, unique layout and unique style.

Timeless Elegance

Refinement and unique design able to relate innovative materials and handcrafted finest details. Winding silhouettes and advanced technologies.

Amongst the distinctive traits of **Timeless Elegance** range stands out the reverse angled stem and the deck shape, which wane towards the stern drawing well rounded curves and connecting smoothly to the bridge.

On the bow, very peculiar is the retractable system of the anchor which, when unused, hides it completely in its slot and avoids to the anchor to spoil the well shaped bow.

Made to Measure
from 23 to 55 feet.

One off

Exclusive yachts and especially unique.
Unique design, unique layout and unique style.

Built with the usual ability to harmonize the modern materials and high-tech manufacturing with precious craftsmanship and attention to details.

This is the real hallmark of the full custom **One Off Range**: the result of a design and manufacturing flexibility that the shipyard has been able to preserve and develop over the years.
